## BUILDING SAFETY BILL – NEW YEAR, NEW REGIME

The Building Safety Bill, published in July 2021, is expected to become law in 2022 and be the biggest shakeup of building safety regulation since the Building Act 1984.

**Register your interest** in our training session for an update on the Bill, its passage through parliament and the changes intended by the Bill that building owners, developers, contractors and consultants need to be aware of.

### PROGRAMME

- Introduction of the Bill to Parliament - expected timescale to Royal Assent and key sections anticipated in force dates
- Gateway one - already in force, what is required, any experience of it?
- Key Dutyholders - particular focus on Principal Designer role & competency
- Limitation - DPA
- Impact on appointments
- Insurance issues

### OPTIONAL EXTRAS

- Proposed amendments/potential expansion of the scope
- Interaction with other legislation - Fire Safety Order, CDM regulations
- HSE as Building Regulator
- Impact of the Grenfell inquiry
