Beale & Co’s Position on COVID-19

Date: 16 March 2020

The ongoing spread of COVID-19 means that the people of the world find themselves in truly challenging times.

At Beale & Co our primary concern is the welfare of our people, our clients and our service providers.

Since the onset of the virus we have acted in accordance with the advice issued by each of the Governments in the three jurisdictions in which we operate. On many occasions we have gone much further.

We have implemented highly restrictive business travel and visitor policies, including between our offices in the UK, and significantly enhanced the cleaning regimes in each of our offices.

We have moved to postpone the various educational and other events that we would usually hold, replacing them with technology backed alternatives wherever possible.

Our investment in IT and Business Continuity Planning means that we are well placed to implement remote working solutions as appropriate.

We hope the information detailed above deals with any query you may have, but should you require anything further please do not hesitate to contact your usual Beale & Co contact.
