PROCUREMENT

Advising throughout the bid lifecycle, including award procedures, tender reviews and legal challenges.

PRE-CONSTRUCTION

Advising on front-end project aspects such as contract reviews, tender procedures, negotiations, joint venturing and project variations.

PROJECT ADVISORY

Addressing issues arising out of payment cycles, defects, delay, disruption, claims for an extension of time and loss and expense, changes/variations, notifications, suspension, termination and breach of contract.

DISPUTE AVOIDANCE

Assisting at an early stage to mitigate the risk of disputes escalating into costly and time-consuming legal proceedings.

HEALTH & SAFETY LAW

Advising companies and individuals on investigations by a range of authorities and representing clients at prosecution stage.

DISPUTE RESOLUTION

Advising on all aspects of the dispute resolution process, extending to negotiation, mediation, adjudication, litigation, arbitration and expert determination.

INSURANCE

Advising on all construction related policies including: Construction All Risk; Design and Construct; Professional Indemnity; project specific and general liability, via direct instruction or being appointed through your insurers where we are on panel.

REGULATORY

Advising companies and individuals on investigations by a range of authorities and representing clients at prosecution stage. Assisting with regulatory investigations and enforcement, environmental disputes, compliance, and environmental risk management.
